

ENDLES SAFE

Aluminium Foil Insulation Fireman Suit

Model: ES-FM-AFIS

FEATURES:

- Flame retardant and high temperature resistant materials.
- Mainly made from aluminum foil composite.
- Protects from heat radiant, oil and gas fire and fire metallurgy, glass, enamel, cement, chemical, and thermal power industry.
- Certificate / Fire Test Report "Laporan Hasil Uji Lab Damkar Nomor 86/LHU/IX/2020"

SPECIFICATIONS:

- 3-layer structure, consist of:
- Outer layer: Aluminum foil composite flame retardant glass fiber, 500g+-10g/m²
- Thermal layer: Aramid retardant insulation mat
- Comfortable layer: Lining natural fiber fabric.
- Accessory
- Hood, Jacket, SCBA backpack, pants, gloves, insulated shoes
- Heat resistant: 550-degree Celsius radiation
- Visor material: PES + silicon oxide/silver coating, 3mm thickness
- Inside Helmet Material: HDPE
- Weight: 6.2kg
- Size Guidance:
 - S: 160-165cm; M: 165-175cm; L: 175-185cm; XL: 185cm
