

PRICELIST CONVENTIONAL FIRE ALARM SYSTEM

10 February 2022

Photo	Product Name	Model No.	Main Parameters	Harga (Rp.)	Diskon	Harga Setelah Diskon
	Conventional fire alarm panel 1 zone	AW-CFP2166-1	1 fire alarm zone, 2 bell outputs, 1 fire relay, 1 fault relay, metal shell	2.880.000	25%	2.160.000
	Conventional fire alarm panel 2 zone	AW-CFP2166-2C	2 fire alarm zones, 2 bell outputs, 1 fire relay, 1 fault relay, plastic front cover, metal back cover, embedded in wall type	3.375.000	25%	2.531.250
	Conventional fire alarm panel 4 zone	AW-CFP2166-4C	4 fire alarm zones, 2 bell outputs, 1 fire relay, 1 fault relay, plastic front cover, metal back cover, embedded in wall type	3.915.000	25%	2.936.250
	Conventional fire alarm panel 6 zone	AW-CFP2166-6C	6 fire alarm zones, 2 bell outputs, 1 fire relay, 1 fault relay, plastic front cover, metal back cover, embedded in wall type	4.140.000	25%	3.105.000
	Conventional fire alarm panel 8 zone	AW-CFP2166-8C	8 fire alarm zones, 2 bell outputs, 1 fire relay, 1 fault relay, plastic front cover, metal back cover, embedded in wall type	4.410.000	25%	3.307.500
	Conventional fire alarm panel 12 zone	AW-CFP2166-12	12 fire alarm zone, 2 bell outputs, 2 fire relay, 1 fault relay, metal shell	8.010.000	25%	6.007.500
	Conventional fire alarm panel 16 zone	AW-CFP2166-16	16 fire alarm zone, 2 bell outputs, 2 fire relay, 1 fault relay, metal shell	9.540.000	25%	7.155.000
	Conventional fire alarm panel 20 zone	AW-CFP2166-20	20 fire alarm zone, 2 bell outputs, 2 fire relay, 1 fault relay, metal shell	13.905.000	25%	10.428.750
	Conventional fire alarm panel 24 zone	AW-CFP2166-24	24 fire alarm zone, 2 bell outputs, 2 fire relay, 1 fault relay, metal shell	15.480.000	25%	11.610.000
	Conventional fire alarm panel 28 zone	AW-CFP2166-28	28 fire alarm zone, 2 bell outputs, 2 fire relay, 1 fault relay, metal shell	17.010.000	25%	12.757.500
	Conventional fire alarm panel 32 zone	AW-CFP2166-32	32 fire alarm zone, 2 bell outputs, 2 fire relay, 1 fault relay, metal shell	18.540.000	25%	13.905.000
	Battery for conventional fire alarm panel	B122AH	12V, 2.3AH x 2pcs lead acid batteries	720.000	25%	540.000
	Conventional repeater	AW-CRP2166	32 zone Led indicator, work with 2-32 zone panel via RS485	2.160.000	25%	1.620.000
	GSM module	AW-GSM100	work with fire alarm panel for fire alarm notification by SMS	2.610.000	25%	1.957.500
	Conventional smoke detector	AW-CSD381	Photo-electric Work voltage: 9-28 VDC Entrance LED output Certificate: LPCB approved	270.000	25%	202.500
	Conventional heat detector	AW-CTD382	Rate of rise 7.1°C/5S A2R Work voltage: 9-28 VDC Certificate: LPCB approved	270.000	25%	202.500

	Conventional smoke and heat detector	AW-CSH831	Multi-detection Work voltage: 9-28 VDC, Entrance LED output	360.000	25%	270.000
	Conventional CO detector	AW-CGD2166C	CO gas detector, Work voltage: 9-28 VDC, relay output	540.000	25%	405.000
	Conventional manual call point	AW-D135C	Working voltage: 24VDC With transparent protection cover, resetable with key	225.000	25%	168.750
	Conventional manual push station	AW-CMC2166-6	Working voltage: 9-28VDC Dimensions: 140x105x45mm Resetable with key	405.000	25%	303.750
	Water Proof Box	AW-WB001	Working voltage: 9-28VDC Dimensions: 140x105x45mm Resetable with key Can use for all Asenware brand's manual call point and manual push station	810.000	25%	607.500
	Conventional fire bell	AW-CBL2166-6	Working voltage: 24VDC Alarm Current: ≤60mA Diameter: 6 inch (150mm) Sound level: ≥90dB	270.000	25%	202.500
	Conventional fire bell	AW-CBL2166-8	Working voltage: 24VDC Alarm Current: ≤60mA Diameter: 8 inch (200mm) Sound level: ≥100dB	405.000	25%	303.750
	Manual Rotary Hand Fire Alarm Bell	AW-CBL2166-8M	Diameter: 200mm Depth : 140mm Weight : 1.7 kg Materials: Aluminium Volume(dB): 60dB	855.000	25%	641.250
	Explosion-proof fire bell	AW-EXB106	Explosion-proof mark : Exd II CT6 Working voltage : DC24V Alarm current : ≤25mA Sound intensity : 95dB~100dB Protection grade : IP65 Use environment temperature: - 20°C~ +50°C Relative humidity: ≤95% without condensation Atmospheric pressure: 80kPa~110kPa	3.195.000	25%	2.396.250
	Conventional strobe sounder	AW-CSS2166-2	Working Voltage: 20-30VDC Working Current (average): <50mA Flash period: ≤90 times/min Sound Pressure Level: ≥80dB Type of Sound Alarm: 3 Size: 115x134x49mm	315.000	25%	236.250
	Conventional strobe sounder	AW-CSS2166-3	Working Voltage: 15-30VDC Working Current: ≤30mA Flash period: ≤120 times/min Sound Pressure Level: ≥80dB Type of Sound Alarm: 1 Size: 84x81x56mm	180.000	25%	135.000
	Water proof Conventional strobe sounder	AW-CSS2166-4W	Working Voltage: 12-30VDC Working Current: ≤35mA Flash period: ≤120 times/min Sound Pressure Level: 95 ~ 115dB (Adjustable) Type of Sound Alarm: 8 Size: 125x128x100mm	810.000	25%	607.500
	Conventional flash light	AW-CFL2166	Working Voltage: 24VDC Diameter: 72mm Height: 45mm	180.000	25%	135.000
	Entrance LED indicator	AW-EL102	Working Voltage: 2.5VDC Size: 70.5x36x38mm	135.000	25%	101.250

	Infrared Linear Reflex Beam Smoke Detector with Reflector	AW-BK901	Operating Voltage:20 V to 28 V DC, Monitor range: 25m, 40m, 70m, 100m LPCB approved	7.020.000	25%	5.265.000
	Beam smoke detector programmer	AW-BK901CODER	Ajust the beam distance from 20-100m	5.400.000	25%	4.050.000
	Conventional flame detector	AW-FDUV602	Parameter: Operating Voltage Range: 12 to 30 VDC Volts Standby Current: ≤10 mA @ 24 VDC Alarm Current: ≤30 mA @ 24 VDC Height:1.8" (45 mm) installed in Base	4.410.000	25%	3.307.500
	Explosion-proof ultraviolet flame detector	AW-FD706E-UV	Work voltage: 18V-30VDC Working Current: Monitoring state ≤25mA, Alarm status ≤35mA Flame sensor: 1 UV Explosion-proof: Exp II CT6 Protection: IP66 Temperature range: -40 to 70°C (-40~158°F, Enhance Type)	8.820.000	25%	6.615.000
	Explosion-proof ultraviolet & infrared combined flame detector	AW-FD707E-UVIR2	Work voltage: 18V-30VDC Working Current: Monitoring state ≤25mA, Alarm status ≤35mA Flame sensor: 1 UV+ 2 IR Explosion-proof: Exp II CT6 Protection: IP66 Temperature range: -40 to 70°C (-40~158°F, Enhance Type)	14.400.000	25%	10.800.000
	Explosion-proof infrared three detector	AW-FD708E-IR3	Work voltage: 18V-30VDC Working Current: Monitoring state ≤25mA, Alarm status ≤35mA Flame sensor: 1 UV+ 2 IR Explosion-proof: Exp II CT6 Protection: IP66 Temperature range: -40 to 70°C (-40~158°F, Enhance Type)	12.960.000	25%	9.720.000
	Explosion-proof Infrared Linear Reflex Beam Smoke Detector with Reflector	AW-BK902E	*Monitor range: 8-20m, 20-40m, 40-70m, 70-100m *Explosion-proof type: flameproof type *Explosion-proof mark: Exd II BT6 *Temperature range: -20°C~50 °C *Humidity range: less than 95% RH *Atmospheric pressure: 80~ 110Kpa *Power supply voltage: DC15V-- DC28V; *Power supply current: debugging current : ≤ 20mA	13.815.000	25%	10.361.250
